

## ABOUT THE SPEAKER

**Joel William**, Founder and CEO of Medhini Group, brings extensive experience from his 12-year tenure with global EPC turnkey contractor Exyte (formerly M+W Group). Previously, he was the Acting Engineering Director for Nutrition Technologies, leading the establishment of their biotech animal feed plant in Johor and expanding regional operations. In 2021, MG secured Insulet's greenfield site masterplan, concept design, and project management for cleanroom in Johor.

With a Bachelor's in Biotechnology and a Diploma in Medical Laboratory Technology from University Science Malaysia (USM), Joel started at the Malaysian Biotechnology Information Centre (MABIC), actively shaping policy discussions and promoting biotechnology & biosafety.

Beyond business, Joel actively engages in GMP-related activities, conducting cGMP training with local universities and consulting for Third Bridge Group in the Semiconductor & Life Science sectors. Under his leadership, Medhini Group thrives as a trailblazer, leaving an indelible mark on the regional industrial construction landscape.
