

ABOUT THE SPEAKER

Mr. Bob Tan holds the role of Product Director for Aseptic Dosage at TruKing Technology Limited. With an extensive professional background, he excels in pharmaceutical equipment design and primary packaging containers within the pharmaceutical industry.

Bob's career has seen him in diverse roles, including Mechanical Design Engineer, Solution Manager, Account Manager, and Product Manager. These diverse positions have allowed him to acquire a multifaceted understanding of the industry's workings, encompassing technical aspects and strategic management.

Of notable significance is Bob's in-depth knowledge and rich experience in vial packaging solutions. Having been a pivotal figure in over 200 projects for the industry, he has demonstrated his adeptness and made significant contributions in this domain. Bob Tan's profound understanding, coupled with his broad experience, positions him as a distinguished speaker capable of imparting invaluable insights and expertise to the audience.
